Brief Description

To improve the timeliness of publications release, the idea of automating the reports has been suggested and implemented. The publication templates do not change, and the content is updated to match the selected report data. Statistics Center Abu Dhabi has developed a one-click report generation process with a user-friendly interface where the user can select the publication frequency and data to generate reports instantly.

Abstract

To improve the timeliness of publications release, the idea of automating the reports has been suggested and implemented. The publication templates do not change, and the content is updated to match the selected report data. Statistics Center Abu Dhabi has developed a one-click report generation process with a user-friendly interface where the user can select the publication frequency and data to generate reports instantly
